Edmonton, AB T5K 2J6

Attention: Regulatory Approvals Centre

Dear Elaine:

Reference: ***Environmental Protection and Enhancement Act Application for an Approval to Construct, Operate and Reclaim the Edmonton Biofuels Project, Chemical Manufacturing Plant***

On behalf of Greenfield Ethanol Inc. and Enerkem Inc., Millennium EMS Solutions Ltd. is submitting seven (7) copies of the above referenced Application as well as three (3) compact discs that each contain an Adobe format file of the complete Application. The proposed activity falls under the EPEA, Activities Designation Regulation, Schedule 1, Division 2, Part 2(b)(i), "the construction, operation or reclamation of a chemical manufacturing plant." The average daily throughput of the proposed plant is 95 tonnes per day of either methanol or ethanol and included with the copies of the Application is the \$5,000 application fee cheque.

Should you require additional copies or have any questions about the Application, please contact the undersigned at 780.496.9048.

Yours truly,

Millennium EMS Solutions Ltd.
